

Álvaro Martínez García

Game Developer

Albacete, Spain • alvaromg8m@gmail.com • [Portfolio](#) • [LinkedIn](#)

Passionate about video games, coding and solving puzzles. Works efficiently both independently and in a team. Strong knowledge and experience in programming as a Computer Engineering graduate.

Relevant Experience

Gameplay Programmer

2025 - Current

Encrypted

- Contributed to a first-person 3D puzzle game by refactoring and optimizing existing gameplay systems, improving code readability and maintainability.
- Implemented interactive puzzles and environment-based mechanics with a strong focus on player feedback and narrative-driven gameplay.
- Collaborated within a multidisciplinary team using GitHub and HacknPlan, following an agile workflow and documenting systems in a shared project wiki.

Game Programmer & UI Programmer

2025 - Current

PokeLearn

- Solo-developed [PokeLearn](#), a Pokemon-themed quiz game with a strong focus on UI systems and user interaction.
- Designed and implemented scalable UI architecture for menus, navigation flows, and feedback systems.
- Iterated on UI/UX based on usability goals, handling layout, state management, and UI-driven game logic in C#.

Technical Specialist

2024

University of Alicante, Spain

- Redesigned and coded a new webpage for the Tech4Diet research team ([tech4d.ua.es](#)) to attract new visitors and improve the exposure of the information about the project.
- Researched about techniques for 3D human reconstruction from one single image.
- Applied the solutions for 3D human reconstruction from other research team's repositories to our project, adapting them to our requirements.

Technical Skills

Programming languages: C#, C, C++, Python, Java, Rust, JavaScript, PHP, Ada

Frameworks: Laravel, Next.js

Software/Tools: Unity, Git/Github, Miro, Trello, HacknPlan, Android Studio, Microsoft Office (Word, Excel, Powerpoint)

Languages: Spanish (Native), English (Cambridge C1 Advanced), Portuguese (Basic), Spanish Sign Language (Basic)

Education

Bachelor's degree in Computer Engineering 2025

University of Alicante, Spain.

Part of the ARA program (High Academic Achievement Group).

- Learned about the fundamentals of programming languages and Object Oriented Programming.
- Consolidated knowledge about software design patterns, tools and conventions for efficient coding.
- Handled both single projects and team projects with different deadlines and responsibilities.

International Baccalaureate Diploma 2020

IES Bachiller Sabuco, Albacete, Spain.

Specialised in Physics, Mathematics, Chemistry and English.

Spanish Science Baccalaureate 2020

IES Bachiller Sabuco, Albacete, Spain.

Average grade: 9.9/10

Additional Projects

Game Programmer and Game Designer 2025

Sand Collector

- Designed and programmed [Sand Collector](#), a resource-management game blending 3D and 2D art, for CLUBU Game Jam 2025.
- Worked with a multidisciplinary team to develop a game in a week, using tools such as Miro, Trello and Github, simulating an agile development framework.
- Implemented UI and event-driven logic; handled concurrent tasks for input and state updates using Unity.

Game Programmer and Game Designer 2025

2D RPG Unity Demo

- Designed and programmed a [2D RPG Unity demo](#) to broaden my knowledge of Unity.
- Implementation of various mechanics and tools being constantly updated and improved.

Teamwork & Activities

Shop Assistant and Community Services 2021

La Poudrière, Péruwelz, Belgium

- Worked collectively in this international volunteering with people from more than 10 different countries, learning how to communicate and collaborate in a multicultural environment.
- Assisted in various tasks to help the community and organise the charity shop where the team worked.

Archeology Assistant and Coordinator 2020

Castell d'Alaró, Mallorca, Spain

- Collaborated in the extraction, cleaning and classification of archeological pieces at the Castle of Alaró.
- Coordinated a team of a dozen of members through the classification process.
